Github: <https://github.com/daniel-jj-evans>

Profile

Full stack web developer with experience in building small scale web applications. My skill set includes knowledge of Javascript ES6+ and ReactJs and i am looking forward to learning and developing my skills within my next role.

I am a responsible and engaging team player who is open minded and adaptable. I am calm in complex and difficult situations that require teamwork, practical solutions, critical thinking, analysis and a good attention for detail. I approach tasks methodically and creatively.

In my spare time I enjoy gaming in which i am very competative usually playing fps or mmo genre of games other than gaming i also enjoy traveling to new countries and cooking.

Experience

Junior Web Developer

Sept 2020 to Nov 2020

An intensive 12 week remote course in full stack software development, that included a client project that ran for just over 4 weeks in which we worked collaboratively in small teams alongside a client to produce a fully functional app. We worked using weekly sprints where we assigned project managers for that week and daily stand ups and retrospectives.

We had one week dedicated to soft skills training where we learned about work ethic and working in an agile dev team also focusing on remote working and how to be more efficient and effective working in a remote environment.

Skills

Software Development: HTML, CSS, Javascript, Git, Bash, NPM/Yarn, Rest API's, Postman, Authentication & Authorization, Unit testing, (Jest & Enzyme).

Front end Libraries and Frameworks: SASS, React, Bootstrap, Angular.

Back end development: Firebase(Auth, Database and storage), NodeJs and Express

Work Experience

Care Assistant – Social Care

July 2018 to Aug 2020

My main responsibilities in this role were:

- Accessing and recording patient information in clinical management information systems (MIS)
- Checking and dispensing medication to clients.
- Booking and attending appointments with patients ensuring confidentiality.
- Assisting with managing client's finances when needed.
- Ensuring patients are up and ready for their day ensuring they have adequate activities and opportunities to go out with support. Patients require sensitivity and a calm demeanor.
- Assisting with any hygiene or personal care support required on a day-to-day basis.
- Safeguarding
