

Steve Shackleton

JUNIOR DEVELOPER

KEY SKILLS &
ATTRIBUTES

PORTFOLIO: www.shackdev.com

GITHUB: www.github.com/Shackleton91

A B O U T M E

Highly personable and deadline-driven Full-stack Junior Developer, primarily experienced in Javascript (ES6+) and ReactJS, with a background in Customer Support platforms, HR, Payroll and Recruitment databases. Competent in a range of languages and open to learning new skills, I am confident in a fast-paced environment, and am an adept problem solver who does not give up until I have completed the task in hand. I am committed to delivering an accurate and reliable service and would like to apply my skills and experience to become a valuable asset to your company.

In my spare time I like to produce music from different genres, and also act. I enjoy keeping in shape by exercising at the gym, as well as going swimming and running. The passion I have for computer languages extends to world languages and I'm currently trying to learn Spanish, French and Mandarin. I've found Mandarin extremely tricky to pick up due to it being a tonal language. I'm also a Volunteer Cadet Instructor for the London Fire Brigade where we teach the cadets about fire safety and equipment drills.

APPLICATIONS/CODING LANGUAGES

ReactJS JavaScript SCSS Git Firebase Angular HTML CSS
Yarn NPM Testing & TDD Python Agile Management SCRUM

ATTRIBUTES

Engaged team player **Creative** Excellent verbal and written communication skills
Practical and solutions-focused Rapport builder **Strong management skills**

EMPLOYMENT EXPERIENCE

Trainee Software Developer
_Nology, London (Working remotely)

Sep 2020 – Nov 2020

- An intensive course which included the development and delivery of a commercial project, called Shift Reporter. This mining management system app, for a South African mining consultancy will help improve employees safety, as well as serving companies by making the tracking of their costs and statistics simpler.

This was a 12-week intensive Full Stack Software Development course, including a 5-week client project. I was the designated Project Manager for one sprint, this involved communicating directly with the client and ensuring their visions were realized as well as conducting daily scrums and retrospectives. During the course I created a portfolio of projects showing my comprehension and understanding of concepts learned throughout the course.

Project Coordinator

Jun 2019 – July 2020

More Than Enough Ltd, London (Working remotely)

More Than Enough Ltd provides therapy courses, support services and events.

- Managed projects to improve the student experience
- Successfully delivered 2 in-depth website improvement projects working on the UX and UI of the website. This greatly improved the functionality of the site and received lots of positive feedback from customers
- Dealt with student enquiries via Zen Desk. These ranged from providing technical support regarding courses to resetting login details
- Diary management as well as scheduling and hosting webinars for students and staff, and troubleshooting where required to ensure calls ran smoothly
- Managed the student company website making HTML coding alterations to content where needed and sorted user access where required
- Worked as part of a dynamic team that managed enrolment, onboarding and the learning pathways of students
